

OUTLET CONNECTORS & VENTS

These units are used in conjunction with vent mat connectors and associated pipe work, to finally discharge the gases to the outside.

PERISCOPE VENT

- Used to discharge gases to the outside

AIR BRICKS

- Ventilation area 8000mm²
- Colours: terracotta, buff, anthracite
- Driving rain resistant.
- Can be stacked in multiples.

VENT TO PIPE ADAPTOR

- Connect gas vent pipe to periscope vent

HORIZONTAL EXTENSION SLEEVE

- Used to continue the venting through internal ground beams
- Used as an extension to join the gas vent connector to the periscope vent

VERTICAL EXTENSION SLEEVE

- Used to provide vertical extension to the periscope vent in the wall cavity
